

Summer Sickness

Authority Zero

You know you're takin' me back to better days
When the music would play
And the thoughts they remained
None of fortune and fame
Singing songs of Revolution and retribution all through the night
You know you're takin' me back to better days
And my oh my things have changed
Not the people per say
Some keep running away
By the way do you remember summer days?
One More Minute never going home

Do you really want to be that way?
Do you really just want to stay?
Who knows what's really gonna come our way
Do you really want to be that way?
Do you really just want to stay?
Who knows what's really gonna come our way?

Yeah we're all right
Not gonna break our stride no
These summer vibes will roll all through our lives
Singin' woah

You know you're takin' me back to a time and place
Everyday Find Your Way
Sweet summer ocean spray
Mexican Radio would play
Singing songs of Revolution and retribution by the fire side
Oh I cap still smell that beech burn
My how the tables have turned
Flamenco in the air as we'd sing away our cares
By the way do you remember summer days?
One More Minute never going home

Do we really want to be that way?
Do we really just want to stay?
Who knows what's really gonna come our way
Do we really want to be that way?
Do we really just want to stay?
Who knows what's really gonna come our way?

Yeah we're all right
Not gonna break our stride no
These summer vibes will roll all through our lives
Singin' woah

Do we really want to be that way?
Do we really just want to stay?
Who knows what's really gonna come our way
Do we really want to be that way?
Do we really just want to stay?
Who knows what's really gonna come our way?

Yeah we're all right
Not gonna break our stride no
These summer vibes will roll all through our lives

Singin' woah
Yeah we're all right
Not gonna break our stride no
Singin' woah
These summer vibes will roll all through our lives
Singin' woah
