The sun is out
My worries gone
I hit you up said I won't be long
Hop in the whip
Let's take a trip
I love you more than I said I did

Every time that I feel alive
Is when I got you right by my side
Ever since I first saw those eyes
I knew I'd have the time of my life

We're feeling good, Malibu, red bikini
Windows down, bumpin' Swae on the freeway
Sippin' margaritas on a weekday
When I'm with you, girl, the living's so easy

(So easy)

(So easy)

A little breeze
Our favorite song
Let's turn it up and we'll dance along
Get in the car
Roll by the palms
We'll find a spot and sleep under the stars

Every time that I feel alive
Is when I got you right by my side
Ever since I first saw those eyes
I knew I'd have the time of my life

We're feeling good, Malibu, red bikini
Windows down, bumpin' Swae on the freeway
Sippin' margaritas on a weekday
When I'm with you, girl, the living's so easy

(So easy)

(So easy)

Easy
(So easy)
Easy
When I'm with you, girl, the living's so easy

Easy
When I'm with you, girl, the living's so easy

Easy
When I'm with you, girl, the living's so easy
