

Sleepless In NYC

Autograf

City, city

Could I stand by, while we watched it fall
Fortunes are fading, do we hit the wall
So stay right next to me
'Cause your body's all I need
Maybe we're not what we were before
Strangers passing, all for starters now
There's nothing left to hold
And the night is all I know

Getting high 'til the sun goes down
Lift my head and I leave the ground
I know I said that I need this town
I need you back, wrap it up did the best of me
Neon lights come and set me free
Close my eyes and I know I'll be

Sleepless in New York City, City, City
Sleepless in New York City, City, City
Sleepless in New York City, City, City
Sleepless in New York City, City, City

If I could try getting you alone
You could remember that I feel like home
But I can't sleep and the night is all I see

Getting high 'til the sun goes down
Lift my head and I leave the ground
I know I said that I need this town
I need you back, wrap it up did the best of me
Neon lights come and set me free
Close my eyes and I know I'll be

Sleepless in New York City, City, City
Sleepless in New York City, City, City
Sleepless in New York City, City, City
Sleepless in New York City, City, City
