Maybe we need a little space
A little time in different places
Maybe we need a little space
Maybe that's how we can make it
Maybe we need a little (Space, space)

I need some new hands on me
I need some new air to breathe
'Cause I've been feeling incomplete
Been taking all my energy
Making my head start to spin
How did we end up like this?
Been living on a memory
I'm talking how we used to be

Maybe we need a little space
A little time in different places
Maybe we need a little space
Maybe that's how we can make it
Maybe we need a little

Woke up with you in my bed
But something inside tells me that
I'm not where I'm supposed to be
And now I gotta set you free
And I was seeing stars in you
But now we're blurring into blue
I need some, I need something new

Maybe we need a little space
A little time in different places
Maybe we need a little space
Maybe that's how we can make it
Maybe we need a little

Maybe we need a little space
A little time in different places
Maybe we need a little space
Maybe that's how we can make it
Maybe we need a little
