Vertigo

Autograf

Trying to stay alive
Not get caught in the highs
Yeah you pull me in circles
Till I'm falling from cloud 9

When you kiss me
I'm spinning till everything else is a blur
When you touch me
I'm feeling the fire is starting to burn

You give me vertigo
You give me vertigo
You give me vertigo

Tried to play it safe
Not give into the chase
But you make me unsteady whenever I see your face

When you kiss me
I'm spinning till everything else is a blur
When you touch me
I'm feeling the fire is starting to burn

You give me vertigo
You give me vertigo
You give me vertigo

You give, You give
You give, You give
No
You give me vertigo

You give, You give
You give, You give
No
You give me vertigo

You give me vertigo
You give me vertigo
You give me vertigo
