

Waiting

Autograf

I'll be right here waiting
I'll be right, I'll be right here waiting

Slow it down in your veins
Chemicals erase all time and space
I'll be right here waiting

Look into my eyes while you break free
Burst into colours that we've never seen
Is it beautiful? Is it all you need?
I'll be right where you left me

All night long
I'll be right here, I'll be right here waiting
On and on
Turn the lights down till the walls start breaking
All night long
I'll be right here, I'll be right here waiting
Waiting, waiting, waiting, waiting, wait-, wait-, wait-
I'll be right here waiting

I'll be right here waiting

Light it up
Fill the dark
Closer now
Feel the spark
Illuminate
All at once
I'll be right here waiting

In between the lines, will we all see
Our colours in the skies, where we wanna be?
And it's beautiful, it is all we need
I'll be right where you left me

All night long
I'll be right here, I'll be right here waiting
On and on
Turn the lights down till the walls start breaking
All night long
I'll be right here, I'll be right here waiting
Waiting, waiting, waiting, waiting, wait-, wait-, wait-
I'll be right here waiting

I'll be right here waiting

I'll be right here waiting

I'll be right here waiting
I'll be right, I'll be right here waiting

I'll be right here waiting

I'll be right here waiting
