

## All Emotions

Autograph

I know the kind of things I wanna do  
I wanna live, I wanna breath, I wanna strive man  
I know they tell me be afraid play it safe  
Watch your step and hold back on your feelings  
You know you got the flame you got the strength to kick some as  
s  
To make it count to take a strong stand  
Won't let 'em talk me out of doing all the things I know I do  
That make me just who I am

I just wanna feel all emotions  
I just wanna let my guard down  
I just wanna feel all emotions

Now I know you think it's cool to wear your shades  
And drive your car around the block like you're a star  
And I know your attitude is a disguise for who you are  
Cause deep inside you are a good man  
I'm flying really high I'm so alive  
The sky is falling down on me I'm in a wasteland  
I'm soaking up the sun I'm on the run  
I'm having fun and doing things that only I can

I just wanna feel all emotions  
I just wanna let my guard down  
I just wanna feel all emotions

You know you got the strength you got the flame to kick some as  
s  
To make it count to take a strong stand  
I'm soaking up the sun I'm on the run  
I'm having fun and doing things that only I can

I just wanna feel all emotions  
I just wanna let my guard down  
I just wanna feel all emotions  
I just wanna feel all emotions  
I just wanna let my guard down  
I just wanna feel all emotions
