

## Feels so Good

Autograph

Tears of joy run down my face  
Love keeps us getting stronger  
No regrets, we don't look back  
They won't hold us back any longer  
Take a stand and take my hand  
A new day, the sun is rising  
Leave them be, their souls are dead  
A new world materializing

Cause the universe is on our side

Watch the signs, the time is right  
Feel so good to be alive  
Tears of joy are running down my face

Working hard isn't everything  
Listen to the voice inside  
Know it's true when your heart sings  
Inspiration is alive  
I'm changing my priorities  
Cause what they say don't concern me  
I broke the chains of old beliefs  
Cause they no longer serve me

Cause the universe is on our side

Watch the signs, the time is right  
Feels so good to be alive  
Tears of joy are running down my face  
See the future shining bright  
Feels so good to be alive  
All the pieces falling into place

We are in this all together  
We can choose to land our disc in heaven

Cause we're in the different state of mind  
Cause the universe is on our side

Watch the signs, the time is right  
Feels so good to be alive  
Tears of joy are running down my face  
See the future shining bright  
Feels so good to be alive  
All the pieces falling into place

Feels so good to be alive  
Feels so good to be alive  
Feels so good to be alive  
Feels so good
