

# More than a million times

Autograph

Sometimes I wake up in the morning  
And I reach across the bed for you  
Nothin' is left except your memory  
I can't believe we're really through

After we meant so much  
I can't forget your touch  
Habits are hard to break  
You're one I just can't shake

More than a million times  
I've tried to get you off my mind, and  
More than a million nights  
I've dreamed of how we held each other tight  
More than a million times

All I can do is think about you  
I close my eyes and see your face  
Since you've been gone you're my obsession...oooh  
Something inside I can't erase

After we meant so much  
I can't forget your touch  
Habits are hard to break  
You're one I just can't shake

More than a million times  
I've tried to get you off my mind, and  
More than a million dreams  
Remind me how it used to be  
More than a million times  
I've tried to get you off my mind, and  
More than a million nights  
I've dreamed of how we held each other tight  
More than a million times

Maybe I'm dreamin'  
Maybe you're home  
But when I wake up  
Baby you're still gone

(Solo)

More than a million times  
I've tried to get you off my mind, and  
More than a million dreams  
Remind me how it used to be  
More than a million times  
I've tried to get you off my mind, and  
More than a million nights  
I've dreamed of how I held you tight

More, more, more  
More than a million times  
I said more, yeah more  
More than a million times  
Yeah more, yeah more

More than a million times  
I said more, yeah more  
More than a million times
