

Agoraphobia

Autoheart

If you gave me all the money
I would buy such ordinary
Things like TV magazines and coffee beans
I have such simple needs

Tried on 13 different pairs of
Shoes and not one made me want to
Leave this blessed house of mine
That's just fine

I really don't want to go anywhere
I don't really want to go anywhere
I don't really want to go anywhere

I am dented by the skies
They keep me up at night
And it's not agoraphobia
It's just a lack of air supply
That keeps me up at night
I know I'm getting older
But I'm told that I'm not
Momentarily out of my mind

Don't need to be hospitalized
To make me realize that I've
Got a problem, no I haven't
Let me be

I really don't want to go anywhere (to go anywhere)
I don't really want to go anywhere (I don't really want to go anywhere)
I don't really want to go anywhere

I am dented by the skies
They keep me up at night
And it's not agoraphobia
It's just a lack of air supply
That keeps me up at night
I know I'm getting older
But I'm told that I'm not
Momentarily out of my-

I don't really want to go anywhere
I don't really want to go anywhere
I don't really want to go anywhere
I don't really want to go anywhere

I don't really want to go anywhere (I will not go)
I don't really want to go anywhere (I will not go)
I don't really want to go anywhere (I will not go)
I don't really want to go anywhere

I am dented by the skies
They keep me up at night
And it's not agoraphobia
It's just a lack of air supply
That keeps me up at night
I know I'm getting older

But I'm told that I'm not
Momentarily out of my mind
