

# Denial

Autoheart

Bouncing off the walls  
Into your arms  
Every time that I stumble  
Losing all my marbles  
When we're apart  
Every day is a struggle

I didn't think I'd be like this  
By acting insecure  
Never in my wildest dreams  
Did I believe I'd be your prisoner

Denial  
You keep on withholding  
Every time we touch I'm frozen  
Denial  
You keep on patrolling  
I shouldn't be unfolding for you  
I'm not joking I'm hoping  
I won't always be broken  
Denial is my survival

Bouncing off the walls  
Into your bed  
Every time that I breakdown  
Losing all my faculties  
And now I am  
Dead on arrival

I didn't think I'd find myself  
A hypochondriac  
Never in my wildest dreams  
How did I end up so delusional

Denial  
You keep on withholding  
Every time we touch I'm frozen  
Denial  
You keep on patrolling  
I shouldn't be unfolding for you  
I'm not joking I'm hoping  
I won't always be broken  
Denial is my survival

I know I'm in the wrong  
But I am caught up in the eye of the storm  
I know I'm in the wrong  
But I am caught up in the eye of the storm  
I know I'm in the wrong  
But I am caught up in the eye of the storm  
I know I'm in the wrong  
But I am caught up in the eye of the storm

Denial  
You keep on withholding  
Every time we touch I'm frozen  
Denial

You keep on patrolling  
I shouldn't be unfolding for you  
I'm not joking I'm hoping  
I won't always be broken  
Denial is my survival
