

Gold

Autoheart

Circulatin', open wide, oh
Much to my annoyance and I
Have no patience when your ratio is in close proximity to me
Bastard hands that rub against me
And incense me violating
Every pore and every inch of my genetic make up, make up

I don't wanna love you like gold
I don't wanna be bought or sold
You're making me nervous
That's for sure
Stipulatin' what I can do
Did it ever occur to you?
You're making me nervous
I don't want you

Masqueradin' as congenial
But I see darker shades in you
And when you try to kiss me, I contort, retort and walk away
I will not facilitate this
My own malice with your inability
To even to see that we are completely incompatible

I don't wanna love you like gold
I don't wanna be bought or sold
You're making me nervous
That's for sure
Stipulatin' what I can do
Did it ever occur to you?
You're making me nervous
I don't want you

Oh oh oh
Oh oh oh
I don't want you
Oh oh oh
Oh oh oh
I don't want you

I don't wanna love you like gold
I don't wanna be bought or sold
You're making me nervous
That's for sure
Stipulatin' what I can do
Did it ever occur to you?
You're making me nervous
I don't want you

Oh-oh-oh, o-o-oh, o-o-o-oh
Don't want you
Oh-oh-oh, o-o-oh, o-o-o-oh, o-o-oh
I don't want, I don't want
I don't want you
I don't want, I don't want
I don't want you, I don't want you
I don't want you
