

Heartbreaker

Autoheart

I have fought this battle more than once
And failed
Cut my neck to ribbons
Made myself ill at the thought of you

When you go, I am black and blue
When you go, I am inconsolable

Heartbreaker
You are all that I see in my immediate future

Feels like you have punched me in the chest
Sadistically
I am clearly not cut out for love

When you go, I'm a broken toy
When you go, I'm a piano with no soul

Heartbreaker
You are all that I see in my immediate future
Heartbreaker
You are all that I hear in my heart
In my heart

Execute the noise
Make it worth the while
Separate the sound
'Til it disappears

Execute the noise
Make it worth the while
Separate the sound
'Til it disappears

Execute the noise
Make it worth the while
Separate the sound
'Til it disappears

Execute the noise
Make it worth the while
Separate the sound
'Til it disappears

Heartbreaker
You are all that I see in my immediate future
Heartbreaker
You are in my heart
In my heart
