

## Jealousy

Autoheart

Jealousy is getting the better of me  
Languishing, what is wrong with me?  
Holding on  
To a dim light, a thin thread, that's out of sight  
All I know is that I can't carry on this way

And all I know is you  
So what am I to do?  
Please calm me down  
Please calm me down, down, dear...  
Before I disappear

Jealousy is getting the better of me  
A holiday will not remedy this fear  
Waiting for a solution, a breakthrough, a cure  
All I know that is that I can't carry on this way

And And all I know is you  
So what am I to do?  
Please calm me down  
Please calm me down, down, dear...  
Before I disappear
