

# Possibility

Autoheart

Addiction is friction  
In which we connect  
The power is ours  
With no side effects

Do you want to come with me  
To the wide and open sea?  
Feel the rushes up and down your spine  
I look up to the broken sky  
In the stars are you and I  
Universally, we are aligned

There is a possibility that you and me  
Will make it through this evening  
Give me something  
I need one thing  
Everything you are I'm wanting

All I want to do right now  
Is die a little in your arms  
You can rest upon my shoulder  
Through the night until we're sober

The sadness I harness  
You make me forget  
No omen, not no one  
Can tear us apart

Do you want to come with me?  
Bold and beautiful we'll be  
See the colors wash away the grey  
The love I have is river-wide  
You can have it all tonight  
All I want is you right by my side

There is a possibility that you and me  
Will make it through this evening  
Give me something  
I need one thing  
Everything you are I'm wanting

All I want to do right now  
Is die a little in your arms  
You can rest upon my shoulder  
Through the night until we're sober

It pains me (it pains me)  
To see you (to see you)  
Without me (without me)  
Without me (without me)

It kills me (it kills me)  
To see you (to see you)  
Without me (without me)  
Without me

There is a possibility that you and me

Will make it through this evening  
Give me something  
I need one thing  
Everything you are I'm wanting

All I want to do right now  
Is die a little in your arms  
You can rest upon my shoulder  
Through the night until we're sober

We don't want to be alone tonight  
We don't want to be alone tonight  
Baby, you and me, you and me  
The possibilities are endless

We don't want to be alone tonight  
We don't want to be alone tonight  
Baby, you and me, you and me  
The possibilities are  
Endless  
Endless  
Endless  
Endless
