

Sylvia, you're such a joy to be with
In the sun drinking rum and Coca-Cola
How we laugh at all the stupid metro men
They all want to be your boyfriend

Here we go, a team so formidable
They can try to separate us but they will fail
We are gold and bright and happy in the night
You and I, we're dancing fireworks

All you do is make it up as you go along
And you will find me
All you do is sing along with the happy songs
And you will find me

And you will, and you will
And you will, and you will find me
And you will, and you will
And you will, and you will find me

Look around, the streets are paved in colour
Ear to ear, we're grinning like two Cheshire cats
We are one, don't ever disrespect us
Take this song and dance to the beat of the drum

All you do is make it up as you go along
And you will find me
All you do is sing along with a happy song
And you will find me

You'll find, you'll find, you'll find me
You'll find, you'll find, you'll find me
You'll find, you'll find, you'll find me

We live by the pleasure principle
Take us to the Danceteria hall
Blood, sweat, tears, baby don't you know
We will always have somewhere to somewhere to go

At the top of the pyramid
Any baggage you need to get rid
Blood, sweat, tears, that is all you need
It's all you need to be free

All you do is make it up as you go along
And you will find me
All you do is sing along with happy songs
And you will find me

All you do is make it up as you go along
And you will find me
All you do is think of me when things go wrong
And you will find me

You'll find, you'll find, you'll find me
You'll find, you'll find, you'll find me
You'll find, you'll find, you'll find me
