

## Underorbit

Autolux

There's a crowd up by the lake  
And my friends are on their way  
Gathered by remote control  
Happy free  
Throw my arms around the sun  
Try to burn with anyone  
Smoke alarms just hum along  
Happy free

Everyone  
Is helium  
Choking on clouds  
It keeps me down  
But i don't mind  
If I'm not found

Being nice is not enough  
You have to twist yourself right up  
Into carbon copies  
Happy free  
Keep the setting sun  
You go nowhere  
Drop into myself  
And I'm underorbit

Everyone  
Is helium  
Choking on clouds  
It keeps me down  
But i don't mind  
If I'm not found
