

## Forever Hungry

### Autopsy

Rotten chunks of meat littered the ground  
Gnashing of teeth and slurping sounds  
Limbs are missing and torsos crawl  
Humanity has begun the final fall  
They stop to look at the sky as if an answer will come  
Without cause they continue on, as a beating drum

Relentless and forever hungry without eyes to see  
Dragging guts behind them as they walk and feed  
Forever hungry, never satisfied  
Forever hungry, 'til all have died

Ripping and tearing of flesh and bones  
The doomed sounds of screams and groans  
Succulent meat is eaten raw  
Face is gashed, missing the jaw  
Entrails pulled for all to share  
Torn apart through death's stare

Relentless and forever hungry without eyes to see  
Dragging guts behind them as they walk and feed  
Forever hungry, never satisfied  
Forever hungry, 'til all have died

The living are dead, the dead are living  
To satisfy the craving they are giving  
One by one all will fall  
This is the answer to the blood call

Forever hungry
