

## Puncturing the Grotesque

### Autopsy

Inside the walls of a filthy shack  
Is an inbred freak with a needle in his back  
Infections swim in his rotten veins  
While thoughts of torture fill his twisted brain

Behold the place of incest where no one ever leaves  
Deformed sadistic creatures stab and pierce and share disease  
They drool and utter toothless shrieks and cut each others skin  
Then fuck the fresh inflicted wounds 'til the slicing stars again

An eyeball splits while juices flow  
As an ice pick sinks in fast, then slow  
A pregnant wretch in a pool of piss  
Drinks vomit from her father as the kiss

Behold the place of incest where no one ever leaves  
Deformed sadistic creatures stab and pierce and share disease  
They drool and utter toothless shrieks and cut each others skin  
Then fuck the fresh inflicted wounds 'til the slicing stars again

A broken window covered with grease  
Shows deformed bodies crawling with fleas  
Rats and roaches, slugs and mice  
Are dined upon night after night

Behold the place of incest where no one ever leaves  
Deformed sadistic creatures stab and pierce and share disease  
They drool and utter toothless shrieks and cut each others skin  
Then fuck the fresh inflicted wounds 'til the slicing stars again
