

Unstable

Autotelic

How long will you keep it inside
You runaway and find a place to hide
You can always hide under the sheets
Play it down, that's what we need

We are unstable
But we are inseparable
We are unstable
But we are, we are

Ooh ooh ooh

How long will you keep it inside
You even know what's on my mind
I can be yours; you can be mine
Together we'll find our time

We are unstable
But we are inseparable
We are unstable
But we are, we are

Let's work it out
I'm gonna work it out
Let's work it out
I'm gonna work it out

(We are, we are, we are, we are...)

How long will you keep me outside
Do you even know what's on my mind
I can be yours; you can be mine
And together we'll find our time

We are unstable
But we are inseparable
We are unstable
But we are, we are

Let's work it out
I'm gonna work it out
Let's work it out
