

If She Wants This Town

Autumn Hill

The pool house's down to a couple crooked cues and they're out of chalk.

I'm tired of hearing all these old men wasting time with their civil war talk.

The high school football team lost every game.

The city's welcome sign needs more than just a little paint.

If she wants this town, she can have main street, dairy queen, every memory.

If she wants this town, she can take the one stop light, the five and dime and all she left behind

Cause I'm leaving, she can come back now if she wants this town .

My grand daddy built the old court house steps where we had our first kiss.

And I can still see us skipping stones underneath that Summit County Bridge

And for a hundred twenty years this place has never changed.

But for this empty man it will never be the same.

If she wants this town, she can have main street, dairy queen, every memory.

If she wants this town, well she can take the one stop light, the five and dime and all she left behind.

Cause I'm leaving, she can come back now.

Oh,

There's one road in, one road out, one way this could go.

So if you see her let her know

If she wants this town, she can burn it to the ground, burn it to the ground.

If she wants this town ,she can have main street, dairy queen every memory.

If she wants this town, she can take the one stop light, the five and dime and all she left behind.

Cause I'm leaving, she can come back now.

If she wants this town.
