

## Blood Of Bacchus

Ava Inferi

Above  
From heavens above  
Stardust pour down  
Blindfolding me  
Rejoicemoment of joy  
Love fills this void  
Boiling my blood  
Ecstasy is taking over.

Curse my acts in the bright of day  
Gods and fairies, blood of Bacchus  
Curse our acts and whatever we say  
Come closer / Reveal Thee / Within me  
A second / Eternal / Ecstasy

Do you hear  
The pulse in your veins  
Releasing this chains  
Forget all your pains  
Freedom  
Our precious state of mind  
Poisoning your kind  
The secrets of the wine  
When the moon shines again  
Leave your fears, leave your faith  
Feel the warmth of its light  
When the moon shines tonight  
Essence flow, through the skies  
Feel the warmth of its light  
Ecstasy is taking over.

Curse my acts in the bright of day  
Gods and fairies, blood of Bacchus  
Curse our acts and whatever we say  
Come closer / Reveal Thee / Within me  
A second / Eternal / Ecstasy
