

## Cold As Ice

Ava Max

I keep a pistol under my pillow at night (Yeah, yeah)  
I close the curtains and I sharpen my knife (Oh, oh)  
I build my walls up and I build 'em up so high (Yeah, yeah)  
So no one's getting inside  
I learned my lesson last time

Baby, just walk away, just walk away  
You headin' straight for danger  
Ayy, don't make a mistake  
I'm just a little bit out of my mind

'Cause I'm cold as ice  
I'm not the type to keep you warm at night  
Better believe it that I'm cold as ice  
I never stay for too long, too long, I'm gone  
Cold as ice  
Cold as ice  
Cold as ice

At night I heat you up with bourbon and red (Yeah, yeah)  
Put on a fire when I take off my dress (Oh, oh)  
We're such a match when I get lit inside your head (Yeah, yeah)  
Swear you're gonna regret  
You'll wish we never had met, no, no

Baby, just walk away, just walk away  
You headin' straight for danger  
Ayy, don't make a mistake  
I'm just a little bit out of my mind

'Cause I'm cold as ice  
I'm not the type to keep you warm at night  
Better believe it that I'm cold as ice  
I never stay for too long, too long, I'm gone  
Cold as ice  
Cold as ice (Oh, woah, oh-oh-oh)  
Cold as ice (Da-da-da-da-da, da-da-da)

Da-da-da-da-da, da-da-da  
Da-da-da-da-da, da-da-da  
I never stay for too long, too long, I'm gone  
Cold as ice
