Ghost

Ava Max

You're in my blood and you're in my veins
And you're appearing in every face
So out of earth, I'm in outer space
Caught up in my dreams but I'm wide awake

Footsteps are following me all night long
Spirits are calling on me, something's wrong
Can't shake off my emotions, way too strong
Heart is underground and I feel you all around

Everywhere I go
I'm haunted by your ghost
You stay on my mind, can't help but keep you close
Oh baby, everywhere I go
I'm haunted by your ghost
You're the one I love and I fear the most

Keep having visions I can't control
I close my eyes just to feel your soul
It's in the air and I think you know
That if I never stop I might overdose

Footsteps are following me all night long
Spirits are calling on me, something's wrong
Can't shake off my emotions, way too strong
Heart is underground and I feel you all around

Everywhere I go
I'm haunted by your ghost
You stay on my mind, can't help but keep you close
Oh baby, everywhere I go
I'm haunted by your ghost
You're the one I love and I fear the most

I'm haunted by your ghost
It's what I fear the most
I'm haunted by your ghost
It's what I fear the most

Everywhere I go
I'm haunted by your ghost
You stay on my mind, can't help but keep you close
Oh baby, everywhere I go
I'm haunted by your ghost
You're the one I love and I fear the most

Everywhere I go
I'm haunted by your ghost
You stay on my mind, can't help but keep you close
Oh baby, everywhere I go
I'm haunted by your ghost
You're the one I love and I fear the most

I'm haunted by your ghost
It's what I fear the most
I'm haunted by your ghost
It's what I fear the most
