

## Jet Set

Ava Max

I was in pieces, pieces  
I was the weakest, weakest  
I couldn't believe it, -lieve it  
I was at my lowest low

I said I would be there, be there  
Oh I didn't need this, need this  
I'm done with the weakness, weakness  
Gotta show 'em that I'm bold

You're just another voice  
Talking off my ear  
Just another enemy  
I've been here before  
Now I've got no fears  
Tell 'em that I'm ready

So go ahead, cause I've left  
I'm jet set  
No one can pull me down  
No rain can't stop me  
I'll fly away, watch me from the ground  
Keep me with your words  
They'll just bounce right back  
Now it never hurts when you talk like that  
So go ahead, cause I've left  
I'm jet set  
No one can pull me down

Now I'm a flyer, flyer  
So over the fighters, fighters  
They're getting me higher, higher  
I just let...

Just another voice  
Talking off my ear  
Just another enemy  
I've been here before  
Now I've got no fears  
Tell 'em that I'm ready

So go ahead, 'cause I've left  
I'm jet set  
No one can pull me down  
No rain can't stop me  
I'll fly away, watch me from the ground  
Keep me with your words  
They'll just bounce right back  
Now it never hurts when you talk like that  
So go ahead, cause I've left  
I'm jet set  
No one can pull me down

No one can pull me down  
Holding on, holding on  
Something is missing  
Holding on, holding on

The rest is unwritten

Just another voice  
Talking off my ear  
Just another enemy  
I've been here before  
Now I've got no fears  
Tell 'em that I'm ready

So go ahead (go ahead) 'cause I've left  
I'm jet set  
No one can pull me down  
No rain can't stop me  
I fly away, watch me from the ground  
Keep me with your words  
They'll just bounce right back  
(bounce right back)  
Now it never hurts  
When you talk like that (talk like that)  
So go ahead, 'cause I've left  
I'm jet set  
No one can pull me down

No, no  
No one can pull me down  
(No one can pull me down)  
No one can pull me down  
No one can pull me down (no)  
No one can pull me down
