

Spinning Around

Ava Max

Sound of your voice
Relinquish the pain
In my heart in the night
In the down of your choice
It's got me caught
In this spark of the fire

But, I can't hold my breath
If you just keep leading me on
And I can't hold you back
But it's all that I want

You keep coming up,
Keep coming down
All of the time
You caught me around,
Spinning around
All of the time

Still running away like you do
I'm chasing your heart like a fool
You keep coming up,
Keep coming down
All of the time

Make up your mind
Cause you're playing my life
That strings of a guitar
Lay it down, at the door
I'm at the corner,
Can't take it no more

But, I can't hold my breath
If you just keep leading me on
And I can't hold you back
But it's all that I want

You keep coming up,
Keep coming down
All of the time
You caught me around,
Spinning around
All of the time

Still running away like you do
I'm chasing your heart like a fool
Keep coming- keep coming up,
Keep coming down
All of the time

I can't make your heart want me
You put in my strength to the test
I can't scream my words into the
Cause I'm just wasting my breath

Wasting my breath
Wasting my...

Cause I'm just wasting my breath

You keep coming up,
Keep coming down
All of the time
You caught me around,
Spinning around
All of the time

Still running away like you do
I'm chasing your heart like a fool
Keep coming- keep coming up,
Keep coming down
All of the time
