

Bloodshot eyes  
Lost all sense of time  
Chasing ghosts  
No control

All the hopeless nights  
In the rearview I  
Thought you'd gone  
But I can't move one

You are my blind spot  
Hide yourself in my heart  
I can feel you close but  
Can't see where you are

You are my blind spot  
One I thought I'd moved past  
I can feel you close but  
Can't see where you are

Shivers pulse  
Through my flesh and bones  
Serotonin  
Overflow

Oh and no one's touch  
Gives the sensation  
You awoke  
And I can't let go

You are my blind spot  
Hide yourself in my heart  
I can feel you close but  
Can't see where you are

You are my blind spot  
One I thought I'd moved past  
I can feel you close but  
Can't see where you are

You are my blind spot  
Hide yourself in my heart  
I can feel you close but  
Can't see where you are

You are my blind spot  
One I thought I'd moved past  
I can feel you close but  
Can't see where you are
