

# Hiding

AVAIION

If we drift apart  
Please hold me close  
So I get used to feeling numb  
And fighting the cold

Is it really working now?  
Are you really trying?  
'Cause I'm the one who takes the pain  
When you're already hiding

'Cause when you're hiding  
Oh, when you're hiding  
Oh, when you're hiding  
Can you hide my pain away?

'Cause when you're hiding  
Take away  
My last breath  
Oh, when you're hiding  
Can you hide my pain away?

'Cause when you're hiding  
Oh, when you're hiding  
'Cause when you're hiding  
Oh, when you're hiding  
Can you hide my pain away?

Is it really working now?  
Are you really trying?  
'Cause I'm the one who takes the pain  
When you already hiding

'Cause when you're hiding  
Oh, when you're hiding  
When you're hiding  
Can you hide my pain away?

Oh, when you're hiding  
Oh, when you're hiding  
Oh, when you're hiding  
Can you hide my pain away?

'Cause when you're hiding  
Take away my last breath  
Oh, when you're hiding  
Can you hide my pain away?
