

# HOLD ME AGAIN

AVAION

Hope you said goodbye when you come around  
If I said too much, can you hold me down?

My house keeps pounding like you said before  
My house keeps falling over again this time

You don't really care for me now  
But you said that you were running out  
If I said too much, can you hold me down?

My house keeps pounding like you said before  
My house keeps falling over again this time

Can you hold me, can you hold me  
Can you hold me, can you hold me  
Can you hold me, can you hold me  
Can you hold me, can you hold me  
Can you hold me, can you hold me  
Can you hold me, can you hold me  
Can you hold me, can you hold me  
Can you hold me, can you hold me  
Can you hold me, can you hold me  
Can you hold me, can you hold me again?
