

## Interlude

AVAION

Okay

Selfreflection

I watch the clouds turn into rain sometimes  
Wondering if I could do the same  
I'm gathering all the dark fog that's in my brain  
And you see me crying light-blue tears right down my face

I watch the sunlight rays push through the dark  
Wondering if I could do the same  
So I capture my emotions to self-reflect  
And I hope to reach a smile on your face  
Yeah, I hope to reach a smile on your face  
And I hope to reach a smile on your face
