

Go lovely, go far away, I've set you free  
Cause I know that we belong  
Held in arms of the sea  
And there's other things a-roll  
On your mind through the day  
And it's understood to me  
We belong in freedom's way

Well I heard the daylight's long  
And the seas are slight but the breeze is strong  
Hope fills my sails and I'm gone  
But man it feels like home

And I know this is all that I've dreamed of  
Cause I feel like living when the life comes back to me  
The sun shines on my face and I feel hope

So go lovely, go far away, I've set you free  
Cause I know that we belong  
Held in arms of the sea  
And there's other things a-roll  
On your mind through the day  
And it's understood to me  
We belong in freedom's way

Well I know the blood runs strong in your heart  
But it beats harder for the life in you to grow  
And you smile cause you know this is where we belong

So go lovely, go far away, I've set you free  
Cause I know that we belong  
Held in arms of the sea  
And there's other things a-roll  
On your mind through the day  
And it's understood to me  
We belong in freedom's way
