

## Keep Finding a Way

Avalanche City

I feel your heart beating  
Can our love keep finding a way  
Your heart's beating  
but we're just unsteady  
I feel your heart beating  
Can our love keeping finding a way  
There's no reason  
That we're drifting further away  
Oh we're drifting further away

So this is how we really stood  
All the phrases in my head no good  
You were looking right through me  
I hadn't moved and I could hardly breathe

But if you know we could understand  
It's part of healing it's a common man  
But if everything is lost to mine  
Then nothing here could set our faults this time

But I feel your heart beating  
Can our love keep finding a way  
Your heart's beating  
but we're just unsteady  
I feel your heart beating  
Can our love keeping finding a way  
There's no reason  
That we're drifting further away  
Oh we're drifting further away

Remember how we held our heads  
Nothing shook us and we took a chance  
Do you believe we pushed too far  
and lost our bearings where we lost our hearts

Ooh, now I'm wondering, ah  
Ooh..

But darling we have a lot of work to do  
And I could carry in my home in your heart oh lord it's true  
So if it's nothing that we have then we've gone and lost  
and broken every promise but I swear we've not  
Your heart is a home in my chest still there for you

But I feel your heart beating  
Can our love keep finding a way  
Your heart's beating  
but we're just unsteady  
I feel your heart beating  
Can our love keeping finding a way  
There's no reason  
That we're drifting further...  
I feel your heart beating  
Can our love keep finding a way  
Your heart's beating  
but we're just unsteady  
I feel your heart beating

Can our love keeping finding a way  
There's no reason  
That we're drifting further away  
Oh we're drifting further away
