

# Prayed For Love

Avalanche City

Friends don't lie  
I've been cursin' the keyboard  
Sittin' here till 3AM  
Late night wine  
Sayin' all I should say to you  
Then delete every single line

There's all these street lights on the drive home  
One day I won't think about it anymore  
Just headlights on an old road, I remember

I prayed for love and I prayed for fire  
I prayed you'd fall but I hoped you'd rise up  
I prayed that you'd find peace and then I prayed for your disaster  
That you'd crawl to me, cryin' out for my pardon

I prayed for love  
I prayed for love  
I prayed I'd see you drop from my horizon  
But honestly, I'm not sure that I'd feel lighter

I prayed for love  
I prayed for love  
I prayed for love

I said I'm fine  
There's cups of tea everywhere  
And I'm fighting to stay awake  
Christmas time  
I don't know about a new year  
When I haven't finished this one yet

There's all this advice that I don't want

Hindsight is a bird's eye to me now  
Like headlights on an old road  
I remember

I prayed for love and I prayed for fire  
I prayed you'd fall but I hoped you'd rise up  
I prayed that you'd find peace and then I prayed for your disaster  
That you'd crawl to me, cryin' out for my pardon

I prayed for love  
I prayed for love  
I prayed I'd see you drop from my horizon  
But honestly, I'm not sure that I'd feel lighter

I prayed for love  
I prayed for love  
I prayed for love

I prayed for love and I prayed for fire  
I prayed you'd fall but I hoped you'd rise up  
I prayed that you'd find peace and then I prayed for your disaster  
That you'd crawl to me, cryin' out for my pardon

I prayed for love and I prayed for fire  
I prayed you'd fall but I hoped you'd rise up  
I prayed that you'd find peace and then I prayed for your disaster  
That you'd crawl to me, cryin' out for my pardon
