

We Are Blood

Avalanche City

I got a little hope
Runnin' the red lights
Ahead of the thunder
And the black skies
And I'm running my numbers
But they don't add much
My clouds will cover me
Till the day I give up

My full heart is half used
My money's gone and my body's bruised
I've had your silver and I'll have your dust
Spill everything in view

'Cause we are blood
And they say diamonds forever
But in my veins
You're runnin' like rivers
You know me and I know you too
This is better
We are blood, mmh
Blood is forever

We are blood, mmh
Blood is forever

(And they say diamonds forever)

I saved all my ghosts
And I'm all spread out
Feel the rush of ambition
Will I fall down
And I brought you my hunger
And I brought you my worries
It's what I'm waiting for
My fears, Lord

These tyrants that I choose
Dictate what I say and what I do
I've had your fullness and I'll have your unrest

Spill everything in between

'Cause we are blood
And they say diamonds forever
But in my veins
You're runnin' like rivers
You know me and I know you too
This is better
We are blood, mmh
Blood is forever

We are blood, mmm
(And they say diamonds forever)
We are blood, mmh
Blood is forever
We are blood, mmh

We are blood, mmh
Blood is forever

I got a little hope
Runnin' the red lights
Ahead of the thunder
I won't mind
If you need an excuse
To just get lost tonight
Mmh-mmh

'Cause we are blood
And they say diamonds forever
But in my veins
You're runnin' like rivers
You know me and I know you too
This is better
We are blood, mmh
Blood is forever

(And they say diamonds forever)
We are blood, mmh
Blood is forever
We are blood, mmh
We are blood, mmh
Blood is forever
We are blood, mmh
We are blood, mmh
Blood is forever
