

Whispers

Avalanche City

This one comes and this one goes
So here we are across the road
In whispers, in whispers
You say let it go, let it go, home

Taking all our time, we rode
Through the town where we grew old
Old stories and pictures

Oh we let them go, let them go, home

Oh I have seen your beauty grow
Where all this fades, you shine and glow
Our love will be legend
If we let it go, let it go, home
