

## Dreams I Dream For You

Avalon

You taste the tears  
You're lost in sorrow  
You see your yesterdays  
I see tomorrow

You see the darkness  
I see the spark  
You know your failures  
But I know your heart

The dreams I dream for you  
Are deeper than the ones you're clinging to  
More precious than the finest things you knew  
And truer than the treasures you pursue  
Let the old dreams die  
Like stars that fade from view  
Then take the cup I offer  
And drink deeply of  
The dreams I dream for you

You see your shame  
But I see your glory  
You've read one page  
I know the story

I hold a vision  
That you'll become  
As you grow into the truth  
As you learn to walk in love

Let the old dreams die  
Like stars that fade from view  
Then take the cup I offer  
And drink deeply of  
The dreams I dream for you
