

First Love

Avalon

I used to be the one who would long to hear Your voice
A child who sought to win his Father's heart
But as I carried on, life's got a hold on me
Now here I am a son so far from home

Tell me when did I loose my first love?
Where did the fire and passion go?
Burn in me Your holy fire give me back my lost desire
And restore in me the love I felt for You

Can I remember how it felt?
When they looked into my face
And they saw the love of Jesus in my eyes
When I looked back on my life
And questioned where I've been
Can I really say I've done my best for You?

Tell me when did I loose my first love?
Where did the fire and passion go?
Burn in me Your holy fire give me back my lost desire
And restore in me the love I felt for You

Oh, where did I go?
Oh, I'm lost and I'm alone
Oh help me please
Lord lead me home

Father take me back let me start again
Lord I've failed and fallen in my pride
Lead me back to You where my life began
Revive in me the yearning that has died

Tell me when did I loose my first love?
And where did the fire and passion go?
Burn in me Your holy fire give me back my lost desire
And restore in me the love I felt for You
Oh, the love I felt for You

Restore in me the love I felt for You
Restore in me the love I felt for You
Restore in me the love I felt for You
