

Here

Avalon

We come here broken
There's a healer in the house
We lay our hearts wide open
We need You now
We come unworthy
Cause it's all we know to do
We're fine to come here empty
As long as we leave with You

Jesus we want You here
We want to hear Your voice
Through all the noise
We long for You
To come and be all You are
Jesus we need You here
We need Your breathe of life
To fill the atmosphere
Jesus we want You
We need you
Here

We lift our worship
May our praises reach Your heart
And find our offering worthy of who You are
Come fill this temple
As only You can do
The more we feel Your presence
The more that we long for You

Jesus we want You here
We want to hear Your voice
Through all the noise
We long for You
To come and be all You are
Jesus we need You here
We need Your breathe of life
To fill the atmosphere
Jesus we want You
We need you
Here

In the middle of our praises
Here
Where You promised You would meet us
Here
Where Your Glory surrounds us
Your Glory Surrounds us
Here
In the middle of our praises
Here
Where You promised You would meet us
Here
Where Your Glory surrounds us
Where Your Glory Surrounds us

Jesus we want You here
We want to hear Your voice

Through all the noise
We long for You
To come and be all You are
Jesus we want You here
We want to hear Your voice
Through all the noise
We long for You
To come and be all You are
Jesus we need You here
We need Your breathe of life
To fill the atmosphere
Jesus we want You
We need you
Here

Jesus we want You
We need you
Here
