

Lanterns

Avalon

Lately I've found
When I start to think aloud
There's a longing in the sound
There is more I could be

In darkness I leave
For a place I've never seen
It's being calling out to me
This is where I should be

We never carried days on our own
But now it's up to us to know
The weight of being so much more
We will find ourselves on the road

On we march
With a midnight song
He will light our way
With our lanterns
On we march
'Til we meet the dawn
He will light our way
With our lanterns on

As we walk out
Without question, without doubt
In the light that we have found
It is finally clear

Our day has come
And we'll stand for who we are
We are ready, we are one
We have nothing to fear

On we march
With a midnight song He will light our way
With our lanterns on
ON we march
'Til we meet the dawn
He will light out way
With our lanterns on

We held a light
To our faces
And realized
We were chasin'
Shadows behind
Not worth saving
So burn it bright
Forever illuminate it

Lately I've found
When I start to think aloud
There's a longing in the sound
There is more I could be
