

## Make It Last Forever

Avalon

Can you feel it  
It's like a thunder  
Something moving like an echo  
through your heart  
Do you hear it  
A voice is calling out of nowhere  
through the noise to where you are  
You can't ignore it  
You're created for it

Do you wanna fly  
There's a higher higher  
Just this side of Heaven  
Brings you to your knees  
Brings you back to life  
You can make it last forever

It's like adrenaline  
Rushing through you  
It can make your heart beat  
jump right off the chart  
Like a fire  
It consumes you  
And in a second it can saturate the dark  
You're in the moment  
Before you even know it

You can search the world forever  
But you'll never find love better  
No you'll never, ever, never  
Bigger than the universe
