

Satisfy, satisfy

There is a river that's overflowin'  
It's what I want, it's what I need, it's where I'm going  
It's gonna fill me with awe and wonder  
That only comes from you  
It's been a journey, it's been a lifetime  
And I can't wait another day without a lifeline  
I need the mystery, I need the mercy  
That only comes from You

You alone, You alone can satisfy, satisfy  
You alone, my only hope to come alive, I come alive  
If I had everything my heart could desire  
I'd be a spark forever searching for a fire  
You alone, You alone can satisfy, satisfy (satisfy)

In the valley, in the victory  
I know Your grace and healing's there forever waiting  
So many blessings, so many reasons  
To praise You once again

You alone, You alone can satisfy, satisfy  
You alone, my only hope to come alive, I come alive  
If I had everything my heart could desire  
I'd be a spark forever searching for a fire  
You alone, You alone can satisfy, satisfy (satisfy)

Oh-oh-oh-oh  
So many things try to be my hope and steal my heart  
Oh-oh-oh-oh  
They all fall short of the glory of the God you are

You alone, You alone can satisfy, satisfy  
You alone, my only hope to come alive, I come alive  
If I had everything my heart could desire  
I'd be a spark forever searching for a fire  
You alone, You alone can satisfy, satisfy (satisfy)

You alone can satisfy  
You alone can satisfy  
Satisfy
