

Had Enough

Avant

I'm witcha girlfriend
Girlfriend, you stay on my mind
Girlfriend, you gettin in all the time
Girlfriend, I know that you can't be mine
Cause you're somebody else's girlfriend

First time you let go
He was at the bar
You was on the floor
Body off the map with a sweet temp-o
peeking at me wit a smile on the low
Two rings on the cell
Can't leave a voicemail
Ah, he don't need to know
Times that we meet at the hotel suite

So ready for another round
Got me wondering where you at now
Got me hanging out witcha girlfriends
That's cool, it don't matter you can bring 'em roun' too
Are you booked for the night?
If you not, then ya man ain't doin right
Let me handle that, it's so good
Come mess witcha boy

I know ya man can't work that
So I ain't gon stop til you had enough
We can keep it like that
Girl, where we we we can keep it like that
All night long I'mma hurt that
and I ain't gon stop til you had enough
We can keep it like that
Girl, where we we we can keep it like that

I remember when you let go
Bouncin your head boy shaking your walls
Sexual G's, screams, moans
Said you had a taste when you need me let me know
Freaky outta control
I'm in the plan let's cast your role
You can be the stripper
I'mma bring the pole
Now pop, lock and drop it out them clothes

So ready for another round
Got me wondering where you at now
Got me hanging out wit ya girlfriends
That's cool, it don't matter you can bring 'em roun' too
Are you booked for the night?
If you not, then ya man ain't doin right
Let me handle that, it's so good
I'm gonna be re-a-al

I know ya man can't work that
So I ain't gon stop til you had enough
We can keep it like that
Girl, where we we we can keep it like that

All night long I'mma hurt that
and I ain't gon stop til you had enough
We can keep it like that
Girl, where we we we can keep it like that

Whoa-oh-oh-ho
Just my temporary love affair
You know, I know you gotta get home
But right now we bout to get it on
Once I go deep it ain't even fair
The way I work them sheets
I'mma make ya wanna stay with me

I know ya man can't work that
So I ain't gon stop til you had enough
