

Heaven

Avant

We can sing a song together
Just you and me
And we can dance all night long forever
Like it's a fantasy, ooh baby
Look, I don't know your name
Don't know where you're from
But I wanna know
Are you willing to come with me
Cause I can get to know you
On the way to heaven
Girl if you decide to come with me
That's where we're going
So all aboard, ready or not
Make up your mind
Tell me what you got
To lose baby choose
Cause wanna take you to heaven

When we get there you will be treated
Just like a queen
And I'll fulfill all of your desires
And your wildest dreams, ooh baby

Look, I don't know your name
Don't know where you're from
But I wanna know
Are you willing to come with me
Cause I can get to know you
On the way to heaven
Girl if you decide to come with me
That's where we're going
So all aboard, ready or not
Make up your mind
Tell me what you got
To lose baby choose
Cause wanna take you to heaven

What's up, what's up
What's up, what's up
I can ease your mind
What's up, what's up
What's up, what's up
I got nothing but time
What's up, what's up
What's up, what's up
You need what I got
What's up, what's up
Is you coming or not

Look, I don't know your name
Don't know where you're from
But I wanna know
Are you willing to come with me
Cause I can get to know you
On the way to heaven
Girl if you decide to come with me
That's where we're going

So all aboard, ready or not
Make up your mind
Tell me what you got
To lose baby choose
Cause wanna take you to heaven

What's up, what's up
What's up, what's up
I can ease your mind
What's up, what's up
What's up, what's up
I got nothing but time
What's up, what's up
What's up, what's up
You need what I got
What's up, what's up
Is you comin or not

Cause I can get to know you
On the way to heaven
Girl if you decide to come with me
That's where we're goin
So all aboard, ready or not
Make up your mind
Tell me what you got
To lose baby choose
Cause wanna take you to heaven
