Avant

Oh, oh, oh, oh oh  
Oh, oh oh oh  
Oh...

Yo  
The sun is going down  
I can see the dark forming  
The waters rolling in  
I can feel the wind blowing  
And you got me  
Like putty in your hand  
Its your fantasy  
So I'lll answer to your command

I'll letting you breathe (ohh)  
So we can do anything anywhere you like  
You're fast asleep  
And I promise you girl I'm not gonna fight it  
We can stay right here forever  
Or we can travel the world together  
I wanna relieve all your stress  
Just don't wake up yet

Your imaginations running wild (running wild)  
Yes it is  
And I know the way its going down (going down)  
No baby  
When we shut off the TV before you went to sleep  
Cause I don't need nothing interrupting me  
Your imaginations running wild (running wild)  
Let me take my time  
And I know the way its going down  
(going down)  
Tonight you unwind  
Did you lock the bedroom door before you went to sleep  
Cause I don't want nobody interrupting me

Our body's intertwined  
Tonights a full moon  
You got me flying high  
In this hot air balloon  
And you'ree taking me  
To places I've never been  
Its your fantasy  
And I don't want this to end

I'm letting you breathe  
We can do anything anywhere you like  
You're fast asleep  
And I promise you girl I'm not gonna fight it  
Never been in this situation (no)  
But I'm loving the sensation (yeah)  
I'll give you more than enough  
Baby please don't wake up

[Chorus]  
Your imaginations running wild (its running wild)

And I know the way its going down (going down)  
I do like it baby  
When we shut off the TV before you went to sleep (hope you did)  
Cause I don't need nothing (hope you did, ohh) interrupting me  
Your imaginations running wild (running wild)  
Let me take over baby  
And I know the way its going down (gots things I wanna do to you)  
Did you lock the bedroom door fore you went to sleep (let me)  
Cause I don't want nobody interrupting me (please let me)

I can feel someone coming to knock on the door (yes)  
Won't be long before the alarm goes off  
And wake you up, cut me off while I'm still in it  
You reached your peak and all I need is just one minute  
But I don't wanna rush you girl I wanna make sure you're satisfied  
Been going for hours baby and now I feel its time  
Don't wake up (no)  
Wake up  
Don't wake up baby  
Don't wake up

\*Alarm goes off\*
