

Chimp Mosh Pit

Avatar

They call it the chimp death grip, they'll tear your fucking face off
The animals have it figured out when the keepers cough blood
Blood

In the jungle
In outer space
I'm an animal
On the rooftops
Up in your face
The creature that you helped create

They said that the kids are sick, we better put the mom down
Papa heard it all and he's gonna make the keepers cough blood
Blood

In the jungle
In outer space
I'm an animal
On the rooftops
Up in your face
The creature that you helped create

They call it the chimp mosh pit, they tear the fucking cage up
The animals had more than enough, now they want to see blood
Blood

In the jungle
In outer space
I'm an animal
On the rooftops
Up in your face
The creature that you helped create
