

Clouds Dipped in Chrome

Avatar

You're a broken dream
In the guts of the machine
Your reality was bought by me
I've got a cure that's to die for
A stake in the great war
Your brand will manufacture me
Weaponizing misery

Dragon on the horizon
Demons in the court room

Unholy alliance
My heart in the fire
I'm taking the motor throne
Under clouds dipped in chrome
I'm a big fucking giant
My face in the fryer
A slave to the motor throne
Under clouds dipped in chrome

You're the man we need
Your fermented semen reeks
Your industry was saved by me
You're the gag ball I chew on
The thirst that my spit spawns
A wifebeater's supremacy
And masculinity

Dragon on the horizon
Demons in the court room

Unholy alliance
My heart in the fire
I'm taking the motor throne
Under clouds dipped in chrome
I'm a big fucking giant
My face in the fryer
A slave to the motor throne
Under clouds dipped in chrome

Under clouds dipped in chrome
Under clouds dipped in chrome
Under clouds dipped in chrome
Under clouds dipped in chrome
Under clouds dipped in chrome
Under clouds dipped in chrome, yeah

Dragon on the horizon
Demons in the court room

Unholy alliance
My heart in the fire
I'm taking the motor throne
Under clouds dipped in chrome
I'm a big fucking giant
My face in the fryer
A slave to the motor throne

Under clouds dipped in chrome
