

In The Airwaves

Avatar

Signals from the outpost
The experiment has failed
You've sworn your way into a sick institution
No witness, no names
Study prolonged pain
Suspended in liquid under constant surveillance

Gently now, be gentle
Keep me down, underground
I outgrew you
Featherless, naked, scared
Such a mess, left you fatherless
He's just a child
Just a child

I am the innards
Of butchered births
I am the answer
I am, I am, I am, I am

Follow the sound of my voice
Follow the sound of my voice

Screaming in a test tube
A demon in the code
Is broadcast across forbidden dimensions
Collision, control
The cranium implodes
I rise from the rubble, got your attention

Enter now, my chamber
Coming out, underground
I outdrew you
Consciousness, barely there
Limitless in my loneliness
Become a child

I am the innards
Of butchered births
I am the answer
I am, I am, I am, I am

Follow the sound of my voice
Follow the sound of my voice
We're in the airwaves
We're in the airwaves
We're in the airwaves, yeah

I am the innards
Of butchered births
I am the answer
I am, I am, I am, I am

Follow the sound of my voice
Follow the sound of my voice
We're in the airwaves
We're in the airwaves

We're in the airwaves, yeah

We're in the airwaves (Follow the sound of my voice)

We're in the airwaves

We're in the airwaves (Follow the sound, follow the sound, follow the sound,
follow the sound)

We're in the airwaves (Follow the sound of my voice)

We're in the airwaves

We're in the airwaves, yeah (Follow the sound, follow the sound, follow the
sound)
