

# Shattered Wings

Avatar

There's something in your eyes  
I saw it grow, you walked away  
Someone's gonna pay...  
Don't care if people die  
You wouldn't stop to save a life  
Let them die away  
They die away

You're frozen  
Parted in two  
Please don't let go

Save me catch me please  
Shattered wings will let you down  
Someone's calling can't you hear?  
Something's burning when you're near

"Oh could it be?" you ask  
Could you have been somebody else?  
Who were you meant to be?  
They shaped you, now they're scared  
The pain is back where it belongs  
Scars won't go away  
Won't go away

You're frozen  
Parted in two  
Please don't let go

Save me catch me please  
Shattered wings will let you down  
Someone's calling can't you hear?  
Something's burning when you're near
