

## Stars They Move

Avatarium

Nowhere I see you yet you are there  
Hiding in the mystic and the strange  
I am not afraid I'll find what I'll find  
When will you shine on little me

I once made a wish - Believed in the stars  
Not to belong is not a sin  
You never saw me you never said hello  
Maybe tomorrow before the morning  
Snow

The stars they move like dreams  
The stars they move like dreams  
Once in a while they turn around  
Look at you - Promise to

The stars they move like dreams  
Stars they float in the streams  
When the world is upside down  
Do you see me cry to the winter sky

The stars they move like dreams  
Will you be there when I turn around  
Speak to me  
Just one more time
