

Breathe

AVEC

You, you're all that I want
You, you're all that I need
You, you got the love
To, to fix me

So keep those eyes on me
Don't be shy, baby
I want you to fight me
In the darkness

Before I breathe you in
I'm breathing in
I breathe you in
I'm breathing in
I breathe you in
I'm breathing in

You, you're all that I love
You, you're all that I trust
You, you got the feeling
Oh you, you got the lust

So keep those eyes on me
Don't be shy, baby
I want you to fight me
In the darkness

Before I breathe you in
I'm breathing in
I breathe you in
I'm breathing in
I breathe you in
I'm breathing in

Hold me back
Before I breathe you in
I'm breathing in
I'm breathing in
I breathe you in
I'm breathing in

Before I breathe you in
I'm breathing in
I breathe you in
I'm breathing in
I breathe you in
I'm breathing in

Hold me back
Before I breathe you in
I'm breathing in
I'm breathing in
I breathe you in
I'm breathing in
